ABOUT UPCLEAR

UpClear is a SaaS company with a global customer base that is changing how Consumer Packaged Goods (CPG) companies manage their Trade Promotions. UpClear's BluePlanner software is a best-in-class platform for Revenue Management, covering Sales Planning, Trade Promotion Management (TPM), Analytics, and Optimization (TPO). UpClear serves clients in 20 countries across America, Europe, and Asia-Pacific from its primary offices in New York, London, Paris, and Hong Kong, and branch in Sydney. BluePlanner has been recognized by the Consumer Goods Technology publication as one of the leading solutions for Trade Promotion Management. UpClear is growing fast and has been recognized for the fifth year in a row as one of the 5000 fastest growing private companies by Inc.

JOB DESCRIPTION

UpClear is rapidly developing data analytics capabilities for the Consumer Goods industry, involving more and more data sources, and increased data point granularity. Efficient data integration is essential to breaking down information silos and ensuring our continuous success.

The Data Integration Consultant is responsible for further developing data integration architecture and capabilities for the UpClear SaaS platform. He/she will work with UpClear technical team as well as third party data providers and clients' data teams.

Ideal candidates have several years of experience working on data integration, including a good understanding of data processing, cleansing, and integration techniques.

RESPONSIBILITIES

- Support development of existing integration points and define the strategy for future integration solutions
- Work with technical teams to consolidate customer processes
- Work with client success teams to translate customer/business needs into technical procedures
- Design and improve custom data-integration procedures for individual customers
- Enhance and maintain our business intelligence platform to deliver improved analytics for end users
- Provide support and streamlining of data consolidation processes

QUALIFICATIONS & EXPERIENCE

- 5 – 10 years of experience in Systems Integration
- Experience with integration Platform as a Service (iPaaS) such as Dell Boomi, Mulesoft and/or Informatica
- Strong computer science fundamentals including data structures and algorithms
- Bachelor's Degree in Computer Science or relevant educational background (including certifications)
- Extensive experience with SQL server
- Familiarity / Comfort with working with our technical environment: SQL, EAI/EDI (AS2, SFTP, OData, HTTP, SOAP...)
- Experience in executing Data Integration and ETL techniques
- Ability to manage a workload based on shifting priorities
- Ability to work in an international, fast paced, and dynamic environment
- Excellent written and verbal communication in English
- Experience in Agile or SCRUM practices a plus

BENEFITS

UpClear employees have access to a range of competitive benefits, including PTO, 401(k), and medical and dental insurance.

If you wish to apply, please send a resume to recruitment@upclear.com, with "p201812.US.IC" in the subject.
Cover letter recommended but not required.
