

## Senior Tableau Consultant / New York

[www.UpClear.com/Careers](http://www.UpClear.com/Careers)

### ABOUT UPCLEAR

UpClear is a SaaS company with a global customer base that is changing how Consumer Packaged Goods (CPG) companies manage their Trade Promotions. UpClear's BluePlanner software is a best-in-class platform for Revenue Management, covering Sales Planning, Trade Promotion Management (TPM), Analytics, and Optimization (TPO). UpClear serves clients in 20 countries across America, Europe, and Asia-Pacific from its primary offices in New York, London, Paris, and Hong Kong, and branch in Sydney. BluePlanner has been recognized by the Consumer Goods Technology publication as one of the leading solutions for Trade Promotion Management. UpClear is growing fast and has been recognized for the fifth year in a row as one of the 5000 fastest growing private companies by Inc.

### WHY UPCLEAR?

- Get on the ground floor of a startup-like company that already has a global reach
- Develop SaaS consulting and Analytics implementation experience and expertise in the CPG industry.

### JOB DESCRIPTION

We view Analytics as a natural evolution of our client's core revenue management solution and we are looking for someone to transform transactional data into insights. The Senior Tableau Consultant is responsible to deliver actionable, value-add analytical solutions (such as dashboards & reports) to client end users. This role works closely with clients to map UpClear reporting capabilities to client business requirements while at the same time building out our SaaS framework. The successful Senior Tableau Consultant needs to collaborate with both UpClear's tech and client service teams.

### RESPONSIBILITIES

- Develop and improve existing report templates based on best practice industry use cases.
- Consolidate new customer requirements into a scalable solution for existing customers and UpClear.
- Leverage SaaS/Software ETL concepts to translate transactional data into actionable insights.
- Ensure quality standards across both the functionality as well as the data.
- Provide Analytics support for the global client base (i.e. US, EMEA, APAC).
- Assist in the Analytics sales process as a technical subject matter expert.
- Deploy new Analytics datasets, dashboards, and reports to client end users.
- Train and develop team members on customer projects and the new technical innovations.

### QUALIFICATIONS & EXPERIENCE

- Bachelor's or Master's degree with a focus on Analytics, IT, or Engineering discipline
- 3 - 5 years work experience with Tableau (Desktop + Server)
- Technical experience with or understanding of Databases, SQL, ETL, and Web Applications
- Experience translating transactional data into a data warehouse and into reports
- Understanding and experience with the Software Development Life Cycle and Agile methodologies, especially within a SaaS environment
- Experience within the Retail or Consumer Packaged Goods industries (especially TPO) is a plus
- Strong autonomy, attention to detail, organizational skills, leadership skills, and interpersonal skills
- Excellent written and verbal communication proficiency
- Open to occasional client visits (less than 20%)

### BENEFITS

UpClear employees have access to a range of competitive benefits, including PTO, 401(k), and medical and dental insurance.

If you wish to apply, please send a resume to [recruitment@upclear.com](mailto:recruitment@upclear.com), with "p201901.US.STC" in the subject.  
Cover letter recommended but not required.
